### THE ASSOCIATION OF WOMEN EDUCATORS—SUPPORTING EDUCATORS AND THE WIDER COMMUNITY TO PROGRESS SOCIAL JUSTICE

#### THE ASSOCIATION (AWE):

- fights to eliminate all forms of discrimination in curriculum, in institutional practices and in policies;
- encourages and supports women, so that they can effectively pursue careers in education;
- encourages and supports women in the decision-making processes at all levels in the educational system;
- responds to issues of concern for women both in education and the community; and
- lobbies for further reforms and change generally to enhance the position of women in education and society.

#### THIS WORK FOCUSES ON THESE STRANDS:

- education as a career path for women;
- issues which affect the quality of education available to girls; and
- societal attitudes/actions which perpetuate a stereotypical view of women and create a barrier to the full participation of women in education and, in society, generally.

#### PUBLICATIONS

AWE publishes a professional journal—*Redress*—and other literature which helps achieve the goals of the Association. Members of AWE receive the journal three times each year as part of their membership.

#### REDRESS

A wide range of issues relevant to women and girls in education are explored, including pedagogy and curriculum, school leadership and management, education policy and practices, specialised programs for girls and boys, critical literacy and media, bullying and violence, self-esteem and assertiveness, body image and eating disorders, sexuality and relationships, domestic and caring responsibilities, subject choice and career paths.

Join us now to receive the upcoming commemorative issue of *Redress* and to work with us shaping a better future for women and girls through education.
